

# Abandonment

A G6  
I feel you stepping away these days

A G6  
I know your touch has gone light

A G6  
I've been trying to ride the waves

FMaj7 E  
I've been holding on tight  
You've been looking sideways these days  
You're not trying to get closer  
I am seeing the time that it takes for you  
To say that its over  
To say that its over

D Gm D Gm  
I'm in a boat alone and I'm lost at sea

D Gm A  
I can't see a way to get home and that's what's frightening me

D Gm D Gm  
The sun hangs in an ocean mist, somewhere in the sky

D Gm A  
But my rudderless boat just drifts with no star to guide by

# Abandonment

Gm

A

With no star to guide by

In a trough, in a difficult place

When there's nothing to say

I see the emptiness on you face

As you go sliding away

I see a darkness behind your eyes

I read you like a book

Like a summer that finally dies

With all the love that it took

With all the love that it took

I am in a boat alone and I'm lost at sea

I can't see a way to get home and that's what's frightening me

The sun hangs in an ocean mist, somewhere in the sky

But my rudderless boat just drifts with no star to guide by

With no star to guide by

I feel you cutting away the lines

And I will float out to sea

I will throw out a hand to you

# Abandonment

But you won't rescue me
