

Everybody Dance (at Christmas Time)

E^b

Everybody dance at Christmas time

So roll your mince pie and rock your glass of wine

G#

Santa say that he can make it

Too hot for snowman, he can't take it

E^b

But he'll be joining in with a dance outside

F#

There's Jingle Bells, we know him well

G#

Dancing with his pretty angel

E^b

Everybody dance at Christmas time

Drums are thumping, base line sounds sublime

Guitars are driving, keyboard sounds just fine

Santa says that he can play it

Rudolph says that he can sleigh it

But with four feet its hard to keep in time

Everybody Dance (at Christmas Time)

Humpty Dumpty has had a fall

Too much whisky and large Snowball

Everybody dance at Christmas time

The snow is falling, it's lying deep outside

But we are warm beneath the Christmas lights

Santa says he'll take us home

Through all the places he has to go

And snowman's found himself a new Snow White

Little Bo Peep with lots of sheep

I wonder which one she's going to keep

Everybody dance at Christmas time

At the Christmas party grown-ups all feel fine

Kids so excited, they're going out of their minds

So Santa says "Ok I'll do it."

But the chimney's tight, will I get through it

To deliver love to all of human kind

The snowman's cool, he's trying to please us

By jiving in his Christmas freezer

Everybody dance at Christmas time
