

The Human Condition

A C7 G

Some live for the future, some in the past

Dm/F D D D

Others live for today

Some live for giving, some live to take

Others just throw it away

CHORUS

F E G Dm

Got to get some perspective and be more reflective

Dm/F D D D

In a world full of change

Things you cannot control are taking a hold

In a world rearranged

Some feel for each other, some for themselves

And some are just feeling afraid

Some watch their world burning, some fight the fire

And others are running away

CHORUS

The Human Condition

BRIDGE

A B F#m A

We are just human, a speck on a timeline

A B F#m A

We live in the landscapes, that shift in their own time

We are just people but we make a difference

When squeezed under pressure we evolve to be different

CHORUS INSTRUMENTAL

Some learn from history, some are keeping their faith

Others spoil for a fight

Some are solving the problem, some have questions

And some want it right

CHORUS
