

A Place We Belong

G C x 3. D C F

A long time ago in a far-away land
We lived for pleasure and made our grand plans
The sun shone down on the finest white sand
And the sea was as blue as the sky

Gm C x 3. D C F

Then we got stuck in the here and the now
We don't know why and we don't know how
The sun has gone down in the greyness of clouds
And we work all our days to get by

Chorus Am E x 3 B A E

How easy your dreams slip away in the night
Vision to caution then turning to fright
Frozen and scared when they turn out the light
There's absence of help when we cry

Chorus Repeat Instrumental Am E x 3 B A E

G C x 3. D C F

Listen again to the words of a song
That will take you back to a place we belong
We may feel weak but deep down we are strong
And we'll make it back if we try

Chorus Am E x 3 B A E

How easy your dreams slip away in the night
Vision to caution then turning to fright
Frozen and scared when they turn out the light
There's absence of help when we cry

Verse 2 Instrumental

G C x 3. D C F

The time has come to return to our youth
To believe once again and to search out the truth
That the sun is still there and the sky is still blue
And we were born to fly

Chorus Instrumental x 2
