

Everywhere and Nowhere

D F#m D F#m A C#m Bm A

In the darkest night

And the frozen light.

I would be everywhere and nowhere without you.

On the longest road

The furthest I could go.

I would be everywhere and nowhere without you.

G A D C#m Bm (A)

Chorus

Without you – words would have nothing to say.

Without you – songs would fade away.

And right through our lives

I would look into your eyes and know that everything would be OK.

Up against the wall

Where the shadows fall.

I would be everywhere and nowhere without you.

Walking through the fire

Or drowning in the mire.

I would be everywhere and nowhere without you.

Across forbidden lines

To the edge of time.

I would be everywhere and nowhere without you.
