

Laugh Out Loud

Dm G F

Build me a stage I will perform

All of my life a comedy

Sitting at my mirror it suddenly
dawned

The whole wide world world was
laughing at me

Pay your money but be forewarned

All of my life's a tragedy

Angels have wings and devils have
horns

And I know which is laughing at me

**Chorus then verse chorus
instrumental**

Chorus

Staring in the mirror and feeling
down

The face in the mirror is the face of a
clown

A poor reflection is what I see

LOL, laugh out loud at me

Sometimes the house lights get
turned on

End of the act so suddenly

A sad individual stands forlorn

But still the people are laughing at
me

Alone backstage in this ghostly
theatre

An injection of jokes is my disease

Calling for more doesn't make me
better

It's an encore that cannot please
