

Juniper Days

E D

Juniper days

A

G & T sipped through the heat haze

E D

Juniper days

A

Immersed ourselves within the gin craze

Em Bm C

And I prefer to see her there

Em Bm

Than on the bed

C

In her alcohol despair

Juniper days

In conversation with crystal glasses

Juniper days

We laugh and drink as summer passes

I prefer to see her there

Than on the bed

in her alcohol despair

Am E

She was my muse

Bm E

But she was always full of contradiction

Am C

She'd laugh but then she'd cry

Bm C

As she passed from pleasure to addiction

Repeat with solo

Juniper days

Lost in in memories of our summer

Juniper days

Seen through the winter of her tumbler

I prefer to see her there

Than on the bed

in her alcohol despair

Am E

She was my muse

Bm C

But she was always full of contradiction

Am C

She'd laugh but then she'd cry

Bm C

As she passed from pleasure to addiction
