

Highs and Lows

Am

There are highs and lows

C/G

There are deeps and shallows

G

When all you can do

Dm Em

Is hold on to pull through

There are crests and troughs

There will be calm and rough seas

As you ride the waves

You just float to be saved

Dm Em Am G

And we never learn when we're up in the sky

Dm Em Am G

And we never learn when we're high but can't fly

Dm Em Am

We never learn when we slip and fall

Dm Em Am G

Suddenly nothing but we have it all

On a hanging rock

Above the flight of eagles

When all that you feel

Is to be believe it's not real

Or the blackest hole

That absorbs you soul now

An absence of light

Buy you'll see if you fight

We never learn when we're up in the sky

We never learn when we're high but can't fly

We never learn when we slip and fall

Suddenly nothing but we have it all

Highs and Lows
