

Meet Me Where I Am

G#

Meet me where I am

F#

I'm coming back from where I've been

G#

The places I have missed

F#

And the things I have not seen

G#

I'll meet you where you are

F#

You're coming back the way you went

G#

Looking at the sights

F#

And the thoughts they represent

G A (repeated)

CHORUS

C#m

F#

Armchair pilot - never leaving

C#m

A

Lone explorer - planning always

C#m

F#

Navigator – plotting straight lines

C#m

A

Journey maker - Moving sideways

Meet me somewhere near

To the east and west of here

Gliding to your side

In silent, windless air

I'll meet you on the spot

Between the north and south of here

Staring at the map

A neatly flattened sphere

CHORUS

Meet me where I am

I'm drifting back from empty seas

Waveless hollow hopes

From the journey of my dreams

I'll meet you where you are

In the place you always stayed

Looking at the distance

That all my journeys now have made

CHORUS
