

# Earthbound

E A<sup>b</sup>m A<sup>b</sup>DIM

I couldn't have tried much harder

A Am E

I flew near the sun and crashed

So hot, as I got higher

With my delicate wings of wax

Am Asus2/G Asus4/F Asus2/E

But one day we will fly the skies

Am Asus2/G Asus4/F Asus2/E

Be floating in the clouds

Am Asus2/G Asus4/F Asus2/E

These strange machines will become birds

Am Asus2/G Asus4/F Asus2/E

I do not know quite how – for now

I couldn't have pushed much further

Right on the edge of risk

I couldn't have gone much faster

I aimed for the moon but missed

CHORUS

I couldn't have worked much harder

It looked right on the plans

Just the same old story

Came crashing back to land

CHORUS

One day we'll be flying

Across the sky we'll glide

One day we'll be flying

Across the ocean wide
