Like sand from a glass

D

How quickly the years pass by

The first look of love

In a teenager's eyes

A deep pulse of heaven

For a boy

Hard broken heart

On the longest of nights

Life's sharp lesson deployed

For time slips away

Like sand in the glass

How quickly the years pass by

A father, a mother

On brief holiday

A moment together

By the sea

A hard, working life

Slave to be paid

Balance a child

On each knee

As time slips away

Like sand in the glass

How quickly the years pass by

An old man alone

In a summer sunset

Watching a child on a swing

A first memory

Is brought back to him

And all that the years

Did bring

As time slips away

Like sand in the glass

How quickly the years pass by
