INSTRUMENTAL VERSE

# Like a Box of Delights

Together we could step into the light  
Working together we could make it alright  
Just being with you would be very nice  
Like a box of delights

We could sit in the dark  
And just cry  
Not even try, not even try

We could both live apart  
With our broken hearts  
Watching the time passing us by

Together we could step into the light  
Working together we could make it alright  
Just being with you would be very nice  
Like a box of delights
