

The First Man on Mars

C#m

Young child

A

E B

Riding home in the back of a car

On the road

Through the windows you're gazing at
stars

Up high

Orion is always on guard

Inside

In your dreams you're the first man on
Mars

CHORUS

C

Em

You live in a world all alone

A

C#m

Lost in the distance of space

C

Em

The universe is the place that you roam

A

C#m

With the light of the moon on your face

Young man

Counting the seconds to start

Your plan

Was laid out in that sky full of stars

Leaving

In a fireball that flings you so far

So soon

You will be the first man on Mars

CHORUS

VERSE INSTRUMENTAL

CHORUS

A man

Stood on the surface of red

No air

You know pretty soon you'll be dead

So far

Under tens of thousands of stars

You know

You were the first man on Mars

CHORUS
