'Coz all I want to do is be with you, all I want to do is be with you

I knew the day I first met you, things would only get better

Yesterday, I think, we both knew that we could be in love forever

'Coz all I want to do is be with you, all I want to do is be with you

I love you, I do

C Am G

I love you

Today you turned my whole sky blue, put sunlight into my heartbeat

The time was right, the hours just flew, there's fireworks inside me when we meet

'Coz all I want to do is be with you, 'coz all I want to do is be with you

It was twice as nice as yesterday and almost as good as tomorrow

To be with you throughout the day with a magical night to follow

'Coz all I want to do is be with you, 'coz all I want to do is be with you
