

# Don't Break My Heart

Am

A6 Am

There's a mist on the river

G F

That lingers here today

Am

A6 Am

Like a ghost from the forest

G F

Where a pale sunlight plays

Am A6 Am

If you came back here

G F

What would I say

D A G D A G

To you, to you

F#m A E G

Please don't break my heart again

F#m A E

Please don't break my heart

F#m A E G

Please don't break my heart again

F#m A E

Please don't break my heart

There are fires in the city

Broken windows and walls

There are stairwells and basements

A thousand places to fall

You went away

Left me in this hole

Without you, without you

Please don't break my heart again

Please don't break my heart

Please don't break my heart again

Please don't break my heart

I see a shadow in the wasteland

Can't believe that it's true

By the way that it's moving

I can tell that it's you

If you're really returning

There's one thing you can do

I ask of you, I ask of you

Please don't break my heart again

Please don't break my heart

Please don't break my heart again

Please don't break my heart

Without you, without you
