

# Too Soon

INTRO E<sup>b</sup>m

E<sup>b</sup>m

Work out what you're gonna do  
A wall of water is coming for you  
The Earth is straining like a bursting balloon  
The monsoon has come to soon  
River's rising towards the town  
Look about all the fields are drowned  
Winds are changing and bringing rain  
You're a victim of climate change

E<sup>b</sup>m

The drought is deep across the land  
The Earth is warming and turning to sand  
Farms are swallowed by spreading dunes  
The forest fire has come too soon  
The sun is beating down again  
No shade for beasts, no shade for men  
Everything is dehydrating  
Watch out now, our climate is changing
