

# Vultures

Am Em Dm Am Am Em Dm Em Am

The west is weak, you're on your knees

Post viral and led by donkeys

The west is weak, economic freeze

We are watching, we are vultures in the trees

E D

We are vultures watching from the trees

Am

We will come

And feed on your democracy

E D

We are vultures watching from the trees

Am

We will come

And feed on your democracy

Wrong choices, voter dissent,

Manipulate elections, weak government

Failed leaders talking through their arse

Can you survive the questions that we ask?

CHORUS

Am Em Dm Am Am Em Dm Em Am

We will step straight across the border

We sow the seeds of chaos and disorder

We'll lock them up, all dissenting voices

Control your world by limiting your choices

CHORUS

The rising right will be our friends

The final shutdown, prosperity will end

And we will rule, autocracy

We will have killed your frail democracy

Am Em Dm Am Am Em Dm Em Am
