

Darkness and Dreams

C G F (riff)

I am lost in a forest

C G Am F (riff)

Cannot see the wood for the trees

C G F(riff)

I am treading a path

C G Am F

Through the darkest moment of a dream

C C7 Dm

And I am calling to you

F C

“Don’t let me down”

C C7 Dm

But you’re fading from view

F C

Lost and never found

C C7 Dm

What am I going to do

F C

If you are not around

C C7

“What is false and what is true?”

Dm

I shout

F

But can’t make

C

A sound

C G F (riff)

There’s a witch and wolf

C G Am F (riff)

From a childhood haunted by dreams

C G F(riff)

I would wake if I could

C G Am F

Escape the dark places I have been

Am G

The thing about darkness

F C

Is that reason’s far away

Am G

The endless loops of night-time

F C

Replaying in your brain

Am G

Somewhere that’s quite different

F C

From the cold light of day

Am G

Trapped with all your deepest fears

F C

They will not go away

Darkness and Dreams

C G F (riff)

I am lying in silence

C G Am F (riff)

On the surface of an ice-cold lake

C G F (riff)

The moon looks down

C G Am F (riff)

On this dream from which I can't awake

C C7 Dm

And I am calling to you

F C

"Don't let me down"

C C7 Dm

But you're fading from view

F C

Lost and never found

C C7 Dm

What am I going to do

F C

If you are not around

C C7

"What is false and what is true?"

Dm

I shout

F

But can't make, can't make

C

A sound
