They say talk is cheap

Your careless, your careless,  
your careless talk cost lives

Depends on the secrets you keep

They say talk is out

Don't you forget about this

They're telling lies and they want no doubt

Loose talk can get expensive

Controlling the conversation

Words are truth or words are lies

Silencing the whole damned nation

You can see it in the eyes

They say talk is cheap

Disseminate misinformation

Say too much, sink too deep

Betrayal, conspiracy, evasion

Please don't forget about this

Your careless, your careless,

Loose talk can get expensive

Your careless talk cost lives

Your careless, your careless,

Your careless, your careless,

Your careless talk cost lives

Your careless talk cost lives

Your careless, your careless,

They say, talk to me

Your careless talk cost lives

Let me know 'cause speech is free

Your careless, your careless,

Let it out, call it in

Your careless talk cost lives

The phone is on and we're recording

Your careless, your careless,

Whisper this and rumour that

Your careless talk cost lives

Tell no one, keep it under your hat
