

# Bye, Bye Sailboat Dreams

## CHORUS (A G6 Fmaj D)

And so it's .....  
Bye, bye sailboat dreams  
I'll be forgetting you  
Bye, bye sailboat dreams  
Sailing out of view  
Bye, bye sailboat dreams  
What am I to do? Oho ooo

## (BRIDGE F#m A C#m B)

But then John McAnalley  
Stole her away from me  
Won her heart with a sailing boat  
And swept her out to sea  
  
Now Sally's in his sailboat  
So far away from me  
And I am on this cliff top  
Staring out to sea  
I've got a spyglass to my eye  
And a map upon my knee  
So when she's lost from view  
I might guess where she might be

## (VERSE A G6 D E)

Let me introduce you to Sally  
Had a house in our back alley  
Somewhere in the seaside town  
Not far from here  
And, of course, John McAnalley  
Also lived in the same alley  
Now both on a sailboat  
So very far from here

## CHORUS

## CHORUS

Me and Sally were together  
The sailor girl I'd loved forever  
Took her out for dinner  
On the promenade  
We talked about a sailboat life  
When I took her for my wife  
Sailing to the sunshine from this old shipyard
