

Train Song

Bdim

They say a train can catch your soul with the fingers of it's wind

Where you stood becomes an empty hole and you a ghost within

Bm

I can see the engine at the tunnel end, I can hear the whistle blow

Bdim

A demon train coming 'round the bend, it ain't stopping here I know

Bdim

"There's a ghost train on the line today, stand back from the platform edge"

"It's passing through at speed", they say, "Get close, there's a risk of death"

Chorus

F#m **A** **E** **B**

You won't see no passengers, there is no ticket to ride

F#m **A** **E** **B**

'Coz this train's never stopping here, it's just passing by

F#m **A** **E** **B**

Be wary of the shockwave it can knock you off your feet

F#m **A** **E**

The train will suck your soul away and eat you with

Bdim

It's speed
