

Better Things to Do

VERSE 1

B **G#m**
You – need to look straight ahead

D#m
Forgetting all the things you said

F#
Still make you blue

B **G#m**
You know – that there is more to life

D#m
Than all the things that make you cry

F#m
There are better things to do

B
Better things to do

CHORUS

C#m7 **G#m7**
So, choose a colour for your life

D#m **F#**
Then our future will be bright

C#m7 **G#m7**
Make your favourite colour me

D#m **F#**
That's all I ever want to be

VERSE 2

I am staring straight into your eyes
We can make it, if we try
We can both pull through
You know – that we've been torn apart
But we have love in our hearts
And I want to be with you

I want to be with you

CHORUS

So choose a colour for your life
Then our future will be bright
Make your favourite colour me
That's all I ever want to be

BRIDGE

B
I won't be walking out the door
G#m
I 've never wanted someone more
D#m
I'll be the best that I can be
F# **B**
If you make your favourite colour me

INSTRUMENTAL CHORUS

Better Things to Do

VERSE 3

You see, that living on the other side

Of all the endless tears we cried

The pain that we both knew

We – could be living brighter lives

With all our sorrow thrown aside

There are better things to do

Better things to do

CHORUS x 2

So choose a colour for your life

Then our future will be bright

Make your favourite colour me

That's all I ever want to be

OUTRO

There are better things to do
