

The Angel Number

111 means nothing to me
It's just weird numerology
the NHS helpline in the UK
So, 111, please
Enlighten me

111 is speaking to me
We don't talk spiritually
She says there's something wrong with me
'Coz basically
111 is 3

Why do people write this stuff
What numbers really mean to us
A future told by a pattern of stars
Angels and demons breaking our hearts

Gods and devils, omens and signs
Sacred places, holy shrines
Guiding hands, shaping fate
It's just nonsense that we create

111 happens everyday
Something special? No way
If you're ill 111's OK
But otherwise
The angel number's a lie

What's special about a random time
It's not a message , it's not a sign
You look for patterns, that's what you'll find
111 just three straight lines

They're just trying.....
To make order, out of chaos

Out of chaos
