

The Other Side of Midnight

G

Hold me 'til the other side of midnight,

C

G

'Coz I need you to stay another day.

G

Something changes, the other side of midnight,

C

A kind of magic to sweep us both away.

G

It's the light of love in our eyes.

Kiss me 'til the other side of midnight,

'Coz I want you to always be with me.

We are dancing to the other side of midnight,

Secret glances, that no one else can see.

It's the light of love in our eyes.

Cinderella, on the other side of midnight,

Always be my raggamuffin queen.

There is heaven on the other side of midnight,

With just an hour to pass between

And keep the light of love in our eyes.
