## CHORUS

F

I wrote it out in black and white  
I spelt it out in neon lights

A#

I was telling you day and night

F

You never listened to my advice

## VERSE 1

A#

You scream and shout and kick against the door

F

You never knew what talking was for

A#

You throw your fists and punch your friends

F

Up on the ceiling, then down on the floor

## CHORUS

## VERSE 2

You live in fear, hunted by all your crimes  
You always deflect and rearrange  
Don't see the hurt caused by all your lies  
And you will never take the blame

## BRIDGE

A#

Oh! If you could only see the truth

F

You ignored the warning shot

A#

Now the world is aiming at you

F

What you had coming is what you've got

## INSTRUMENTAL CHORUS

## VERSE 3

It ends in darkness, the violence and the fights  
The abuse turns inward like a knife  
You did not stop when the bullets went flying by  
The next will surely end your life

## CHORUS
