

Moonlight in the Mountains

C

G#

Do you remember the moonlight in the mountains

C

G#

How it shone down on our hearts,

Gm

F

Touched with magic and it caught us,

Gm

F

Laid us naked for the dawn?

Gm

F

When it came, we were joined as one

Did you feel it, when you left there?

Did the moonlight catch your soul?

Know, the magic still remains there

It will stay there, not let go

It will stay there evermore

Moonlight in the Mountains

Now there's nothing but moonlight in the mountains
Shining downward from the sky
Laced with magic, bridging chasms
Holds the memory deep inside
Sure, the image never dies

We are joined now to the mountains
Nature holds us in her arms
So, the magic of our love grows
Joined together by the night
Held so closely in pale moonlight
