

# Get Behind Me

## CHORUS

Get behind me  
Get behind me  
I will always be your shield

## VERSE 1

I want to be the hero  
That you read in a story  
I want to fight your battles  
Covered in the glory  
Leading from the front  
And never looking backward  
I will be the shield and sword  
Always moving forward

**VERSE 3**  
I want to rule alone now  
There'll be no opposition  
Traitors who oppose me  
Will spend their life in prison  
It was I that saved you  
In conflict I created  
I am the chosen one  
The leader you awaited

## CHORUS

**VERSE 2**  
I want to be your leader  
I want to be your king  
I want to see your deference  
I want to see you kneeling  
Remember when you came here  
Despondent and despairing  
I am the one that saved you  
With my bravery and daring

**CHORUS**  
**VERSE 4**  
I want to be a deity  
So, I can live forever  
You'll never overthrow me  
A head that can't be severed  
My son will live my legacy  
The image of a hero  
Rule the empire that I built  
The shadow of my statue
