

North South East West

G

The hour it travels east to west

From long sunrise to short sunset

C

It's journey round the world

G G

The night and day

G

North to south from pole to pole

Across the Earth the seasons roll

C

Hot and cold

G

Drought and heavy rain

Em

From east to west

From north to south

Am

We face the wind

Of cruel self-doubt

A#

And use the compass

point

G

To state our worth

Em

From north to south

And east to west

Am

We ride the waves

In our life vests

A#

We are pulled

Towards

G

The centre of the Earth

Em

From west to north

And east to south

Am

Magnetic fields

A#

And coloured clouds

We all sleep

When

G

Our day is done
