

# Fading Star

Am                    A7 F/A Am  
Silent reviews say it all,  
I am now a failing star

Am                    A7 F/A Am  
I see the writing on the wall  
B  
“Your music’s out of fashion

F                    Aaug (sus2) F  
Once you really adored me,  
C  
We wish it had never happened

F                    Aaug (sus2) F  
Now you just ignore me  
G                    D  
We’re moving on, we’re moving on”

Am                    A7 F/A Am  
Out of mind and out of sight,  
B  
Now we think you are a bore

Am                    A7 F/A Am  
Invisible in faded light  
D  
Overblown, you dinosaur!

F                    Aaug (sus2) F  
Once you’d ‘celebrate’ me,  
G                    D  
We’re moving on, we’re moving on

F                    Aaug (sus2) F  
Now you denigrate me  
I am just a falling star

C    G                    Am    D  
I was once your rising star  
I am playing smaller halls, people hardly come at all

Words of spite and words of rage,  
No one knows about me, old friends start to doubt me

A journey to an empty stage  
But I am keen to soldier on, with slackened strings and cobweb drums

Once, those words would praise me,  
Will you resurrect me, or will you just forget me

Now you try to erase me  
On the ground, a fallen star

Floating on a turning tide,  
On the day my stardom died

Once you used to support me,  
Once you never report me
