

Tonight

Tonight, I will paint your world in gold

INSTRUMENTAL CHORUS x 2

Capture beauty before its sold

So now I will stand beneath the trees

A promise to be true

Then falling to my knees

And then I'll make the image sing

I'll sing for liberty

With all the joy you bring

And you will echo from your cave

I will only speak the truth

A call that we will save

Tonight, I will make the stars shine bright

That we might all be free

I will step into the light

For you

Tonight, I will make the stars shine bright

Truth, love and freedom

I will step into the light

By moonlight I will dance around the sun

For you

Where all of life began

Truth, love and freedom

In the firmament above

Verse C#m B A

In raindrops I will sculpt a world of dreams

Chorus F#m A E

Where nothing's what seems

A planet full of love

Tonight, I will make the stars shine bright

I will step into the light

For you

Truth, love and freedom

There are those who are circling around

The fools who would silence sound

With words built to take us down

There are times when the flag blows in the
wind

A cage to lock us in

A box to stop us singing
