

# The Flood

Am

I fall

G

And dream that I am sleeping

F

The wind, it wails a weeping

Dm E

For the passing of a day

The wall

A barrier for safekeeping

Has cracked and now is leaking

It will wash us all away

**CHORUS**

A

A flood of tears

E

Is breaking

G

It's taking

D

Me away from you

A

And these last years

E

Are fading

G

Hearts breaking

D E

As we drown in fear

I call

But the river pulls me under

The lightening and the thunder

A torrent feeds on rain

The wall

That held a lake of silence

Collapses with great violence

So you will not see me again

**CHORUS**

A flood of tears

Is breaking

It's taking

Me away from you

And these last years

Are fading

Hearts breaking

As we drown in fear

I wake

And know that I'm not sleeping

But the wind, it is still weeping

For the passing of a day

Am

And I am swept away!
