INTRO C C C Em7 C x2

CHORUS

C Am F G

Oh no! Those satellite people

Dm Am Em

They come and go - in your life

C Am F G

When the going is good, they like to get close to you

Dm Am Em G

But then they're gone with the dark of the night

C

Those satellites

VERSE 1

C Em

They hang out with the stars

Am F

But they don't know really who you are

C Am Em G

They envy the light that surrounds you

C Em

Ignore the messages they send

Am F

Because they're really not your friends

C Am

They pulse from outer space

Em G C

Vanish without trace, those satellites

CHORUS

C Am F G

Oh no! Those satellite people

Dm Am Em

They come and go - in your life

C Am F G

When the going is good, they like to get close to you

Dm Am Em G

But then they're gone with the dark of the night

C

Those satellites

BRIDGE

C F

You reach up to the sky

G C

There is a sparkle in your eye

C F G

And those people they swarm all around you

C F G Am

They feed on your success like vipers in a nest

C Am F G

Have their pound of flesh now they've found you

Instrumental Chorus

VERSE 2

C Em

And we all know what it's like

Am F

To be the victim of satellites

C Am Em G

We all know what it's like to be lonely

C Em

So when you find a friend

Am F

Who is there through thick and thin

C Am

A special person in your life

Em G C

The one and only, you can lose those satellites
